

PROVEN LEADERSHIP

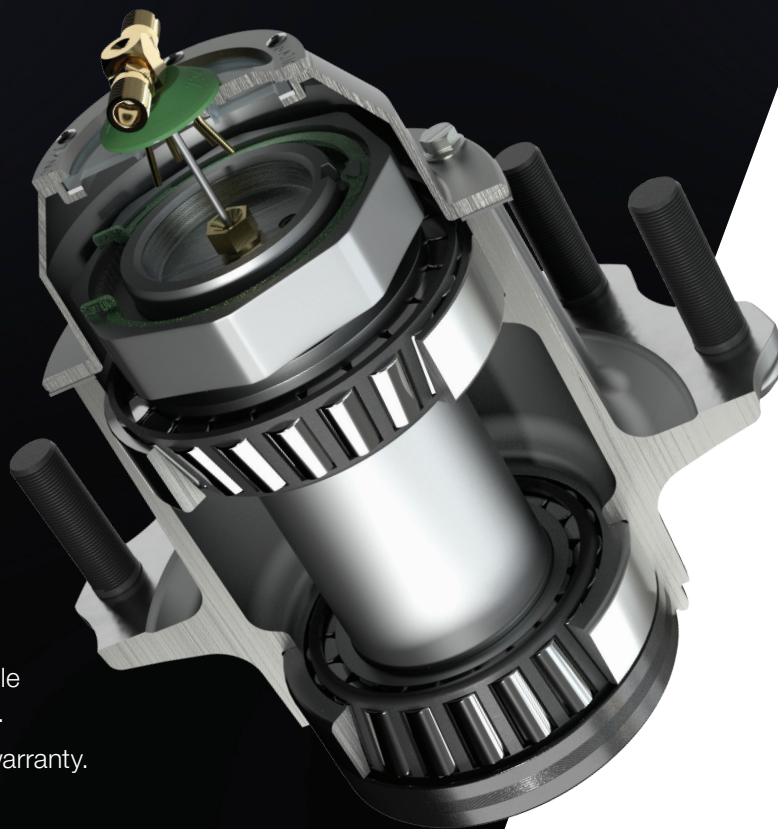

AXLEPAK™ WHEEL-END SYSTEMS WITH EXTENDED WARRANTY

Cummins-Meritor is a world leading manufacturer of trailer axles, with a heritage of designing, engineering and manufacturing trailer components since 1930.

We offer a wide range of trailer axles to meet your needs for nearly every application, including dry freight and refrigerated vans, platforms, tanks, dump trailers, container chassis, livestock and grain trailers, and more. With AxlePak, fleets can now get their Cummins-Meritor axles with precision-assembled wheel-ends covered by an extended warranty, for maximum productivity and peace of mind.

PERFORMANCE ADVANTAGES

- Cummins-Meritor trailer axles and integrated axle/suspension products deliver proven performance, technology and value from the global axle leader.
- AxlePak combines high-performance components and precision assembly in a durable wheel-end system built for long life and dependable service to maximize your uptime.
- Maximizes trailer uptime and efficiency while minimizing total lifecycle cost of ownership.
- Backed by Cummins-Meritor's extended warranty.
 - AxlePak7: 7 years parts and labor
 - AxlePak5: 5 years parts and labor

Meritor

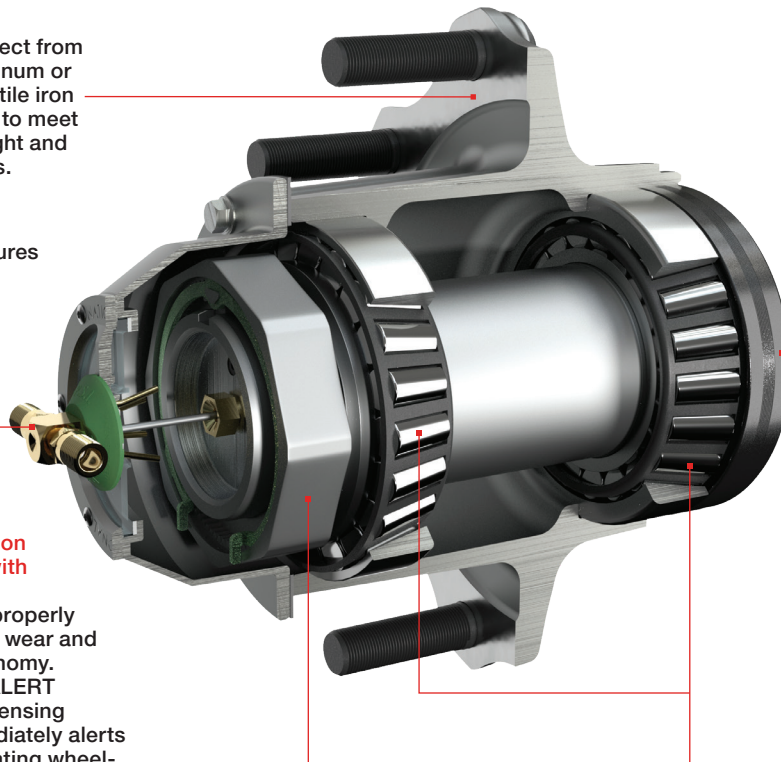

**FOR
A WORLD
THAT'S
ALWAYS ON™**

AXLEPAK WHEEL-END SYSTEMS WITH EXTENDED WARRANTY

Hub options – Select from ductile iron, aluminum or austempered ductile iron (ADI) hub options to meet your specific weight and cost requirements.

Cummins-Meritor trailer axle – Features precision-formed spindles, for class-leading weight savings and durability.

Meritor Tire Inflation System (MTIS™) with ThermALERT™ – Helps keep tires properly inflated to reduce wear and increase fuel economy. Standard ThermALERT wheel-end heat-sensing technology immediately alerts drivers to overheating wheel-ends so that drivers can take preventive action to avoid damage. When combined with AxlePak, warranty coverage on the MTIS thru tee and stator is extended.

Synthetic semi-fluid grease – High-performance Chevron® Delo® grease engineered for trailer wheel-ends operating in the widest range of conditions and ideal for extreme high and low temperatures in demanding applications that require extended lubrication intervals.

Premium wheel seal – The Federal-Mogul™ premium wheel seal features a polytetrafluoroethylene (PTFE) lay-down lip and multiple exclusion points, for maximum protection. The chemical-resistant seal provides exceptional performance, even in extreme temperatures.

Spindle nut system – Factory-assembled using Cummins-Meritor's precision bearing adjustment process, the single-piece nut and retaining ring system securely maintains bearings at the proper setting.

High-grade matched bearings – Designed for smooth running and long life, the bearings meet Cummins-Meritor's strict standards for quality and performance.

AxlePak wheel-end system extended warranty*

AxlePak5 – 5-year parts/5-year labor

- Wheel seals
- Hubs
- Bearings
- TP or TN spindles
- Optional: MTIS thru tees and stators, 5 years on parts and 1 year on labor

AxlePak7 – 7-year parts/7-year labor

- Wheel seals
- Hubs
- Bearings
- TP Spindles
- Optional: MTIS thru tees and stators, 7 years on parts and 1 year on labor
