

MERITOR® AIR DISC BRAKE PADS

MERITOR® AIR DISC BRAKE PADS

Meritor air disc brake pads are engineered to provide an enhanced solution with the performance required when replacing original equipment products. Meritor ADB friction meets strict Meritor quality standards for stopping distance, low maintenance, downtime costs and lasting value.

Aftermarket ADB Pads.

Meritor brings a legacy of expertise to ADB solutions for linehaul and vocational applications.

We have combined our OEM and aftermarket expertise to provide multiple solutions for Meritor®, Bendix® and WABCO® brake platforms. As a brake technology leader, Meritor has designed affordable aftermarket solutions for a wide offering of ADB components.

All Meritor ADB pads are manufactured with material that meets the 2025 requirement of less than 0.5% copper by weight, so you can standardize for years to come.

All Meritor pads are tested to ensure they exceed industry standards using FMVSS 121 dynamometer specifications.

Meritor is committed to supplying the industry with brake pads that provide the performance that today's vehicles demand. When it's time to replace your brake pads, go with a respected name in braking – Meritor.

MH9310 ALL MAKES BRAKE PADS

Pads have wire mesh and are powdercoated to resist rust jacking

Kits include pad springs and other necessary hardware

N-type copper free friction mix

Friction mixed with proprietary blade design to reduce variability between batches

Friction approved by Meritor engineering for stopping performance and wear properties

SELECT YOUR FRICTION MIX BASED ON VOCATION

MA9300 / MH9310

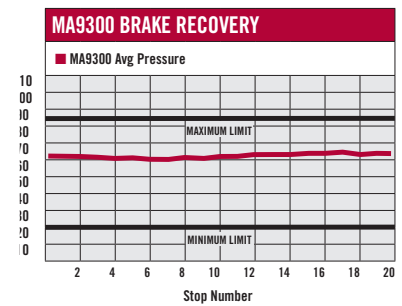

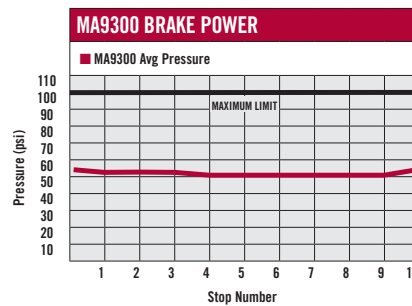

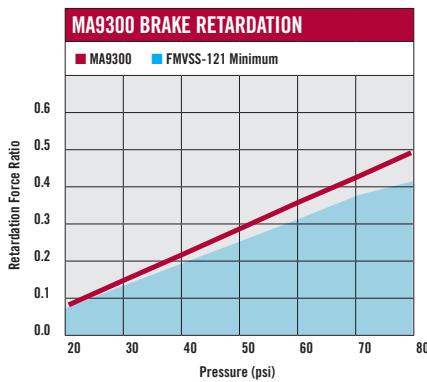

LINE HAUL

Advantages

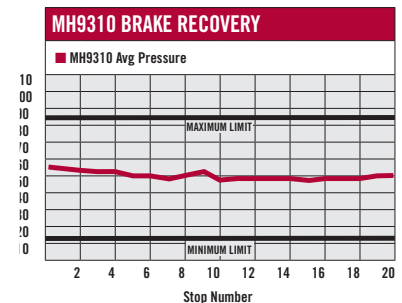

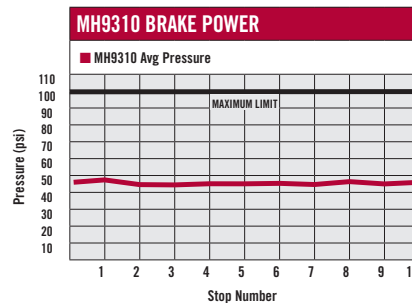

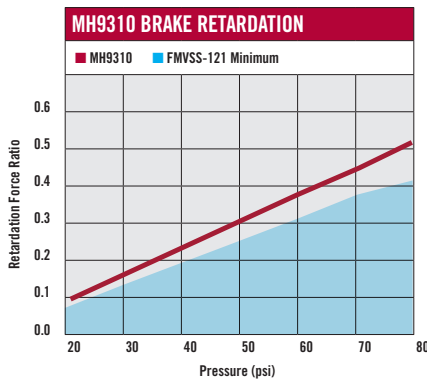

- Similar brake feel whether your vehicle is loaded or unloaded
- Low noise
- Exceeds or meets FMVSS-121 brake retardation threshold
- Same retention system and coating as MA761 Meritor® Genuine pads
 - Powdercoated backing plate to reduce rust jacking
 - Unique plate casting helps physically attach friction to plate (KIT2252L2CG only)
- Long lasting pads, with rotor wear similar to MA761 Meritor® Genuine A-type pads

OPTIONS AVAILABLE

EX+™ H OPTIONS. PLUG INTO YOUR EXISTING SYSTEM.

Pad Wear Warning Indicators.

These warning indicators fit into the slot of both 1311 and 1203 FMSI pads. Clips are included to keep wires away from the rotor.

PAD WEAR INDICATORS	
Meritor® Part Number	Description
KIT225250	H series side clip built before 10/2012
KIT225251	H series side clip built after 10/2012
KIT225253	Wear indicator for New Flyer Xcelsior

Potentiometer and Adapter Plugs.

Meritor® EX+™ H calipers have a potentiometer port that is ready to go when you are. We have a linear potentiometer that plugs directly into the caliper. This sensor then plugs directly into your existing port with the help of our adapter.

POTENTIOMETER KITS	
Meritor® Part Number	Description
KIT225228	Potentiometer with Knorr system adapter
KIT225229	Potentiometer with WABCO system adapter

EX+™ L / EX+™ LS OPTIONS. EASY TO INSTALL.

Positive Pad Retraction.

Reduce brake drag with Meritor positive pad retraction springs. These springs push the pads away from the rotor after braking which can increase fuel efficiency and extend the life of your pads and rotors.

PAD RETRACTION SPRINGS	
Meritor® Part Number	Description
KIT2252L2CG-PPR	Fits either EX+™ L or EX+™ LS

Pad Dust Shields.

If you are driving on gravel roads you can add dust shields to protect your pads from debris. This debris can cause large grooves in your pads and rotors and make early replacement necessary. Pad shields can prevent small stones and other road debris from getting into your brakes.

PAD DUST SHIELDS	
Meritor® Part Number	Description
3264Q1577	Pad Shield for EX+™ L
3264J1674	Pad Shield for EX+™ LS
