

MERITOR® MG1A FF STANDARD 20K FRICTION MATERIAL

MERITOR

IDEAS DRIVING RESULTS

SUPERIOR FRICTION FOR OUTSTANDING
PERFORMANCE ON THE ROAD.

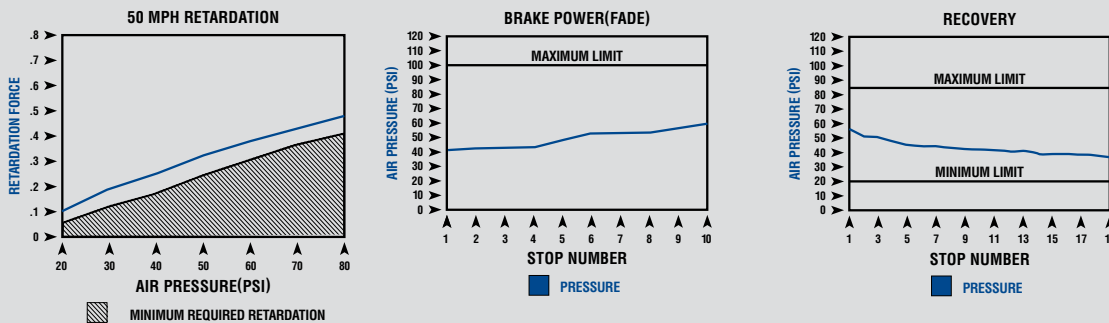

Available on new or
remanufactured shoes.

MG1A is the next step in the evolution of Meritor's popular MG friction product line and is engineered to meet or exceed the performance characteristics of its predecessor, MG1. MG1A offers excellent fade and recovery; exceptional stopping power; and outstanding reliability and durability.

Features And Benefits

- Delivers excellent performance over a wide range of S-cam applications on trucks, tractors and trailers
- Performs well in medium-weight applications, such as general cargo, furniture, plastics and mail
- Delivers a level of durability and friction stability normally found only in higher-cost friction
- Recognized as a dependable, long-lasting and versatile performer available at a very attractive price
- MG1A lining is an asbestos-free glass fiber-based medium friction material
- Meets the inertial dynamometer requirement of FMVSS 121 brake standard

Typical Inertia Dynamometer Plot Test Parameters FMVSS 121 Brake Standard*

Brake: 16 1/2" x 7"
Meritor® S-Cam
Axle Load: 20,000 lb
AL Factor: 165
Normal Friction: .429 F
Hot Friction: .443 F

* Test results are for reference only and are based on the results of a single test. Test results may vary from batch to batch, without jeopardizing the product's performance.

Product Profile

Freight Weight: Low, Medium, Heavy

Terrain: Flat, Moderate, Mountainous

Applications				
Single Axle Tractor/Trailer 	Tandem Axle Tractor/Trailer 	Flat Bed Trailer 	Double Trailer 	Moving Van - Low Profile
Logging 	School Bus 	Beverage 	Container Chassis 	Car Hauler
