MERITOR® MG2A GG PREMIUM 23K FRICTION MATERIAL

IDEAS DRIVING RESULTS
SUPERIOR FRICTION FOR OUTSTANDING PERFORMANCE ON THE ROAD.

Available on new or remanufactured shoes.
MG2A is the next step in the evolution of Meritor’s popular MG friction product line and is engineered to meet or exceed the performance characteristics of its predecessor, MG2. MG2A offers durability for stop-and-go urban driving, and strong brake power for all vehicle applications including vocational and severe service.

Features And Benefits

- Superior all-around performance
- Ideal for trucks, tractors, trailers, buses, dump trucks and lowboys
- High strength resists cracking
- MG2A lining is an asbestos-free glass fiber-based medium friction material
- Meets the inertial dynamometer requirement of the FMVSS 121 brake standard

Typical Inertia Dynamometer Plot Test Parameters FMVSS 121 Brake Standard*

* Test results are for reference only and are based on the results of a single test. Test results may vary from batch to batch, without jeopardizing the product’s performance.

Product Profile

Freight Weight: Low, Medium, Heavy
Terrain: Flat, Moderate, Mountainous

Applications
