DAMAGES

Damaged threads
Bleeder screw broken off in housing
Scored by rotor wear in housing
Pitting from excessive rust/corrosion
Rail wear past acceptable use standards
Missing parts (mounting cradle)

Cores will also not be accepted if damaged due to non-operational causes such as rough handling, fire or improper storage.

DAMAGE: Threads

DAMAGE: Bleeder screw broken off in housing

DAMAGE: Scored by rotor wear in housing

DAMAGE: Pitting from excessive rust/corrosion

DAMAGE: Rail wear past acceptable use standards

DAMAGE: Missing parts (mounting cradle)

(only applicable on models with mounting cradle)
